

The Model 68 is an automatic draining, freezeless wall hydrant with hose connection Backflow Protection and a unique, integral, locking head cover. The **UNDERCOVER WALL HYDRANT®** is intended for irrigation purposes and is designed to blend in with modern architecture for installation on restaurants, schools, office buildings, churches, apartments, motels, stores, shopping centers and industrial buildings.

Hydrant Specifications:

ASSE 1053 listed hydrant

Includes ASSE 1052 Double Check Backflow Preventer

- For both backflow and backsiphonage protection
- Field testable
- No spray back

Finishes/Materials:

Standard: Chrome plated brass head with stainless steel cover

Option: Brass head with stainless steel cover

Features:

- Automatically drains - even with hose attached
- Uses solid 3/8" brass operating rod
- Contains Hardened 3/8" stainless steel operating stem
- One piece plunger – controls flow and drain function
- Dual copper casing tubes w/built-in slope
- Works with pressures up to 125 p.s.i.
- Maximum Temperature: 120° F
- Brass head with integral, locking stainless steel cover to protect against unauthorized use
- Head cover flips down and out of the way for unobstructed hydrant operation
- Head cover is replaceable without removing hydrant
- Tee Key operation for hydrant and door lock
- Easier to install than standard recessed box hydrant
- Wall Clamp included

- *For Irrigation and Outdoor Watering*
- *Not Intended For Continuous Use*

The Model 68 is sold with a limited warranty for five years against defects in material and workmanship. We will replace or issue credit (at our option) for defective goods that are returned for inspection and found to be defective within five years of purchase from Woodford.
